

RAM TECH

An ISO 9001-2008 Certified Company

MSME & NSIC Registered

MANUFACTURER AND SUPPLIER OF INDUSTRIAL PROCESS EQUIPMENTS

OUR RANGE OF PRODUCTS

- Process Reactors
- Industrial Agitators
- Stainless Steel Heat Exchangers
- Cooling Towers
- Screw Conveyors
- Stainless Steel Reaction Vessel
- Shell & Tube Heat Exchangers
- Inter Coolers

Industrial Process Reactors

Stainless Steel Reactors

Owing to our rich industry occurrence and acquaintance, we are involved in manufacturing and supplying a broad range of Industrial Process Reactors. Under this range, we offer Industrial Agitators, Chemical Reactor, Jacketed Reactors and Stainless Steel Reactor. Dimensionally accurate, our offered reactors are manufactured using high-grade raw material and other allied components that are obtained from reliable vendors of the industry. High strength and durability are some of the features of this range.

Industrial Agitators

Pressure Vessels

Stainless Steel Reaction Vessel

Owing to the dexterous professionals, we have been able to provide the customers with a commendable assortment of Pressure Vessel. Under this affordable range, we offer Stainless Steel Reaction Vessel, Stainless Steel Vessels, Reaction Vessel and Steam Jacketed Vessel. These pressure vessels are manufactured utilizing quality-approved raw material and finds their application in power, engineering and automotive industries. In addition, our offered vessels are developed in adherence with the industry set guidelines. Fabrication standard maintained as per ASME sec.8 and the welding quality is as per **ASME sec.9**.

Stainless Steel Storage Tank

We are an eminent organization engaged in manufacturing and supplying Stainless Steel Storage Tank that are widely used across nation. Our products are highly demanded in process industries for the reliability that our customers gains from us. We manufactured these tanks using quality-approved raw material procured from authentic vendor-base. These tanks are manufactured as per the international norms and standards using latest technology and high grade equipment. Moreover, we provide customization facility to our valued patrons as per their needs and requirements.

Liquid Storage Silos

FRP Lined Tanks

Aluminium Storage Tanks

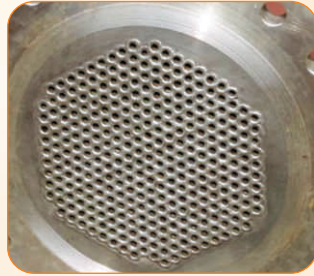

With the expertise of our professionals in this domain, we are able to bring forth a quality approved range of Aluminium Storage Tanks. Low maintenance, high tensile strength and longer service life are some of the attributes of our offered range of storage tanks. Spacious in nature, our offered storage tanks are developed in accordance with the industry set guidelines. Further, before dispatching to the customers premises, these tanks are closely tested on various characteristics. It is important that all these equipments are manufactured under the code of construction **IS 2825** & The Tolerance is maintained in accordance with **IS 2102**

Heat Exchangers

Clients can avail from us durable range of Heat Exchanger. Used in oil refineries and other large chemical processes, these exchangers are suited for higher-pressure applications. Consists of a shell (a large pressure vessel) with a bundle of tubes inside it, these exchangers enables fluid runs through the tubes. Further, another fluid flows over the tubes (through the shell) to transfer heat between the two fluids. The set of tubes are called a tube bundle, which consists of plain and longitudinally finned tubes. These exchangers are manufactured as per **TEMA** standards.

Floating Type Heat Exchanger

Industrial Coolers

After Cooler

We are an eminent organization engaged in manufacturing and supplying best grade Industrial Cooler. Under the offered range, we provide After Coolers, Inter Coolers, Oil Coolers and Air Cooled Condenser. The demand of offered industrial coolers is increasing with a rapid pace as these are manufactured by making use of the premium quality raw material and components under the supervision of professionals. Post production, we check these industrial coolers so as to ensure their compliance with the established quality standards of the industry.

Inter Cooler

Oil Cooler

Air Cooled Condensers

Industrial Conveyors

Over the years of experience in the industry, we have been able to provide the customers with an astounding Industrial Conveyors. Under this affordable range, we offer Belt Conveyors, Stainless Steel Conveyor, Roller Conveyors and Screw Conveyors are few to name. The industrial conveyors offered by us are manufactured in accordance with the international quality standards. Dimensional accuracy and low maintenance are some of the features of these conveyors.

Belt Conveyor

Roller Conveyor

Chain Conveyor

Slat Chain Conveyor

Centrifugal Fans

Backed by technologically advanced infrastructure, we have emerged as one of the reliable manufactures and suppliers of Centrifugal Fans. These fans are manufactured using optimum quality raw material that we procure from certified vendors. Focusing on high quality, we strictly make our products pass through a number of quality check process. Our products are highly demanded nationwide for the reliability our customer gains from us. Professionally skilled engineers enabled us to provide customization facility to our valued customers ensuring premium quality desired products at stipulated time. Moreover we manufacture Centrifugal Fans as per ISO 1940 Q grade 6.3. standard.

Dust Collectors

Dust Collectors are systems that are used in industrial and commercial process. Ram Tech presents a huge range of Dust Collectors that are available with best features and specifications. Dust Collector System consists of a blower, dust filter, dust removal system, etc. There is variety of Dust Collectors such as Reverse Pulse Jet Bag Filter, Pulse Jet Bag Filter, Bag Filter, Bag House, Cyclone Separator, Scrubber, Wet Scrubber, Centrifugal Fan, Induced Draft Fan and Forced Draft Fan. All these are developed by using quality raw materials. All these are appreciated by our customers because of their different properties such as good economic returns, work stability, high efficiency, and automatic pulse cleaning function, which is widely needed by various patrons.

Ribbon Blenders

We are widely acknowledged as one of the reputed organizations engaged in manufacturing and supplying best quality range of Blender Blades. Under the offered range, we provide Ribbon Blender Blades. These blender blades are used for moving the material, that is to be mixed to & fro vigorously. We make these blender blades by making use of the high quality stainless steel while keeping in mind the specifications given by customers.

Certificate No:IAS/TND/2218
